International Diploma in Logistics and Transport

What attracted you to apply for Aspire funding?

I am currently studying at Namibian German Centre for Logistics and learned about the Aspire funding in class from my lecturer

What course did you apply for and why?

I applied for Logistics and Transport Management because I have a passion for Logistics and am currently employed in the sector. There's also a scarcity of logistics professionals in Namibia. I have been studying the International Diploma in Logistics and Transport, but wanted to progress up the levels

What is your current role and your ambition for the future?

I am currently working as a Senior Logistics Coordinator with responsibility for Fleet Management, Procurement and the supervision of Warehouse personnel. In the future, I want to be a Logistics Specialist and also to become a part time lecturer at the CILT centre in my country

What proved the biggest challenge during your studies?

The biggest challenge was time, as I am working full time

What's been the most rewarding aspect of the course?

Learning about the different types of transport and how different sectors in the supply chain are linked

Is there anything that surprised you about course?

Yes the fact that logistics is such a broad field

What new skills have you acquired as a result of the training?

I now know about logistics and transport in its broadest sense - transport, warehousing, procurement just to name a few of the areas

How did you find the experience?

It was quite challenging, but informative and mind broadening

Is there anything else you would like to comment about your Aspire experience?

I would like to thank Aspire for their funding, because it has made it possible for me to obtain my International Diploma in Logistics and Transport from the CILT and keep up the good work. I can walk tall now. I will go all the way in doing the next levels to show my gratitude to Aspire

What advice would you give anyone considering applying for Aspire funding?

My advice will be to take the opportunity to apply to Aspire because they have changed my vision and perspective on life
